SUMMARY

Software Engineer with hands-on experience in developing full-stack web applications using Angular, React.js, Node.js, Express.js, Python, and SQL. Skilled in building responsive applications, REST API integration, database management, and data analysis, with a strong foundation in problem-solving and software development.

SKILLS

- Programming Languages: Python, Java, JavaScript, TypeScript, SQL, C++
 - Frontend & Backend: Angular, React.js, HTML5, CSS3, Node.js, Express.js
 - Databases & Libraries: MySQL, Firebase, Pandas, Matplotlib, Streamlit
 - Tools & Practices: Git, GitHub, REST APIs
-

PROJECTS

Fake Image Detection

- Developed a CNN-based fake image detection model to classify images as real or AI-generated.
- Built a Streamlit web app for real-time image classification, allowing users to upload and analyze images instantly.

FoodieQR

- Developed a full-stack Restaurant QR Ordering System using Angular, Node.js, Express.js, and MySQL, enabling customers to scan QR codes to access digital menus and place food orders.
- Built an admin dashboard for managing categories, menu items, pricing, and images, with secure authentication, QR code generation, responsive UI, and REST API integration.

User Engagement Analysis

- Developed an e-commerce user engagement analysis project using Python, SQL, Pandas, Matplotlib and Streamlit.
- Performed data cleaning, SQL analysis, and built an interactive dashboard to visualize customer behavior and purchase trends.

Taskkeeper

- Developed a Flutter-based task management app using the Hive database for local storage.
 - Enabled users to add, edit, delete, and mark completed tasks with strike-through formatting.
 - Added date and time tracking for each task to improve organization and task management.
-

EXPERIENCE

Web developer Intern | Infapp Business Solutions

March 2025 – August 2025

I completed a 6-month internship at Infapp Business Solutions, Udupi, where I developed a Helpdesk Ticket Management System using React.js, Firebase, and Node.js. The system included AI-powered features for smart issue resolution and prioritization, improving efficiency in IT support operations. Applied unit testing and debugging to ensure reliability and error-free performance

EDUCATION

Master of Science (Computer Science)

CGPA: 8.53

Mahatma Gandhi Memorial College, Udupi

Bachelor of Science

CGPA: 8.99

Vijaya College, Mulki

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02), Udemy, Dec 2025
- Deloitte Australia Data Analytics Job Simulation, Forge
